Palladium (Pd)	85%	\$100	82%	\$100	80%	\$100	7 working days
HIGH-GRADE BENCH FILINGS/GRINDING							
Gold & Silver	97%	\$100	95%	\$100	94%	\$100	7 working days
Platinum/Palladium	80%	\$100	80%	\$100	80%	\$100	7 working days

High Grade Bench Filings/Grindings have a 10oz. minimum (gross weight). Crucibles, emery paper, buffs or saw blades, computer parts, electronic parts, electrical parts, and plating solutions are not acceptable for clean scrap (Do Not Send These Items). Past due balances will be paid first before any funds are transferred to customer's bank.

We understand that you have concerns about the environmental and cultural impacts due to certain mining activities. We assure you that we are just as concerned as you are.

We are committed to being true to you, our customer. To do so, we have always believed that this starts with our practices toward our environment and continues to follow through to our business applications. While others have just begun this, ours has been a way of life from the start.

We applaud your efforts to recycle your scrap metals. You are doing your part to lessen the impact on the environment. In an effort to continue what you've started, we offer Clean Scrap Packaging, complimentary upon request, that includes biodegradable Greenline™ polybags for sending scrap metals for recycling. It is 100% recyclable and FDA compliant.

 Street address _____ City, State, Zip _____
 Phone number _____ Fax number _____ Email Address _____

Preparing Your Shipment

- Package your scrap metal securely, including double poly bagging or using a properly sealed container, when necessary.
 - Keep your karat gold, silver, and platinum group metals separate. We analyze each group and apply refining charges accordingly.
 - Be sure to remove anything that is **not** karat gold, silver, platinum, or palladium.
- Include this completed Packing Slip with your scrap metal.
- Place the securely sealed package into the shipping box of your choice. The shipping method is at your own discretion; however, we suggest that you insure your shipment with your carrier. When sending larger refining shipments, we recommend using UPS or Motor Freight. Stuller is not responsible for lost product prior to their arrival at our facility.
- Attach the mailing label to your box. If you do not have a mailing label, send your shipment to
 Stuller, Inc.
 ATTN: Materials Management-3616
 302 Rue Louis XIV, Lafayette, LA 70508

Note: Clean Scrap Packaging, complimentary upon request, includes two 100% biodegradable Greenline™ poly bags, shipping labels, packing slip, and a small USPS flat rate box.

Please indicate the material type and quality of clean scrap enclosed. Settlements will be based on after melt weight at second London Fix on day of settlement.
Please be sure to separate your karat gold, silver, and platinum group metals to assure proper identification and analysis.

Settlement Options (please check one)

- ACCOUNT CREDIT (check below)
 Unapplied on account Apply to oldest balance
 Apply to specific transaction: fax details to AR at 337-262-7730
- 50/50
- ELECTRONIC PAYMENT/CHECK

*See reverse side for details

We make all settlements at second London Fix on day of settlement. Final settlement is three working days for karat gold and silver; seven working days for platinum and palladium group metals; and seven working days for high grade bench filings/grindings. Note: Stuller will fire assay for fine silver content in gold lots at no additional charge. Platinum group metals, karat gold, and silver are processed and analyzed separately. Refining charges apply.
