 - Direct Deposit (ACH)

We make all settlement offers at second London Fix on day of settlement. Settlement details are provided within three working days for karat gold and silver, with payment within five working days. Settlement details are provided within seven working days for platinum and palladium group metals with payment within nine working days. Note: Platinum group metals, karat gold, and silver are processed and analyzed separately. Refining charges apply.

Preparing Your Shipment

- 1) Package your scrap metal securely, including double poly bagging or using a properly sealed container, when necessary.
 - a. Keep your karat gold, silver, and platinum group metals separate. We analyze each group and apply refining charges accordingly.
 - b. Be sure to remove anything that is **not** karat gold, silver, platinum, or palladium including stones.
- 2) Include this completed packing slip with your scrap metal.
- 3) Place the securely sealed package into the shipping box of your choice. The shipping method is at your own discretion; however, we suggest that you insure your shipment with your carrier. When sending larger refining shipments, we recommend using UPS or FedEx. Stuller is not responsible for lost product prior to its arrival at our facility.

4) Attach the mailing label to your box.

IMPORTANT: If you do not have a mailing label, send your shipment to
Stuller, Inc.
