

# THE GO-TO TOOL GUIDE

*Top Tools  
from Trusted  
Brands*

 STULLER

Professional craftsmen and technicians who demand perfection in precision tools have relied on Grobet USA® equipment for more than 140 years. Sought after by dentists, optometrists, and machinists, as well as jewelers, Grobet USA tools are renowned for quality, durability, and exacting specifications.

Although Grobet USA carries a wide range of products for jewelers, our experts have settled on a couple of favorites: SUPER PIKE sawblades and Panther burs. An evolution of the popular PIKE blades, Swiss-made SUPER PIKE sawblades offer unparalleled heat resistance and cutting power. And Panther hardened steel burs, made in Germany and celebrated for their precision performance, are longtime favorites of our customers.

**29-1520**  
Visio-Tek™  
Standard Microscope  
**\$309.00**

**29-1521**  
Visio-Tek™  
Polarized Microscope  
**\$349.00**

Versatile and portable, these digital microscopes utilize both Wi-Fi and USB transmission. Visio-Tek can be connected to iOS and Android smartphones or tablets via the Visio-Tek App, as well as through Wi-Fi/USB connection to Windows and Mac computers or laptops. Using Visio-Tek dedicated software, you can capture pictures, shoot videos, and take measurements. This is the state-of-the-art way to observe the micro-world.

# FOREDOM®

Best known as the manufacturer of the iconic Foredom® Flex Shaft, Foredom also carries an evolving line of popular benchtop tools, including wax carvers, bench lathes, and dust collectors. Everything Foredom makes exhibits the dependability and quality associated with its famous rotary tools. Based in Bethel, CT, Foredom has been in existence since 1922, and it's hard to find a jewelry shop without a Foredom Flex Shaft (or two, or five) in the shop. Stuller proudly carries Foredom machines, as well as all of the accessories you might need to get the most out of them.

Variable Speed Dust Collector  
**\$799.00**

Foredom's new variable speed MADC20 Dust Collector is whisper quiet at 52dbA with powerful suction at 115CFM. The cyclone with polycarbonate collection chamber pre-filters 99% of all debris and the HEPA filter eliminates 99.98% of debris up to 0.3 micron. This quality-built single-station unit has casters for easy portability, is simple to use, and is basically maintenance free. It is an excellent companion to Foredom's MALC15 Lighted Work Chamber, but it is a stand-alone unit for collecting dust from grinding, polishing, deburring and sanding wood, metal, die stone, plaster, and many other materials.

RinGenie™ devices help you work smart and fast, boosting productivity and accuracy in milling, drilling, channel cutting, engraving, inlaying, and more. Particularly popular for jewelers with a need for speed and precision in engraving and layout work, the RinGenie and its suite of adapters offer unprecedented flexibility. Made in America by SDL Precision, the RinGenie is a revolutionary device that is destined to be a classic tool for generations of jewelers to come.

**26-1701**  
The RinGenie Vise  
**\$675.00**

The RinGenie Vise is ideal for diamond and jewel setting as well as engraving. It is designed for optics or non-optic use and is small enough to be used with one hand for ease of mobility yet is designed for use under a microscope. What makes the RinGenie Vise revolutionary is the stationary pins that make adjusting the levers for movement much easier.

**26-1700**  
RinGenie the Complete Kit  
**\$695.00**

The RinGenie is a money-making time saver. Layout with precision and speed. Accuracy in drilling and milling and precise channel cutting fine incremental settings with 360 degree rotation. Easy spindle-locking thumb screw.

Once you use it, you will know why it is called the RinGenie, because it's like magic.

**26-1701**  
RinGenie Vise Adapter  
**\$175.00**

 Quatro Deluxe Junior  
 Polishing Unit, with Polishing Motor  
**\$1,595.00**

- Design ensures that your shop is clean (model c/w ClearView)
- Capture your gold inside filter bag, then send it for refining
- HEPA filter guarantees clean environment and ensures that air leaving the unit is absolutely clean.
- ClearView enclosure contains all precious metals
- Maximum free air 600 CFM, 2 speed motor ½ hp.
- LED Light included.

**47-4221**  
 Quatro Stand-Up Polishing Unit, ½ HP  
**\$2,570.00**

**47-4221**  
 Quatro Stand-Up  
 Polishing Unit, high volume  
**\$2,999.00**

Most efficient and powerful polishing station on the market with whisper-quiet technology for the jewelry industry. Captures gold & platinum in two separate bags, so platinum dust can be kept separate. Specially designed filter bypass system maximizes efficient rouge capture

- Easy cleanout of storage chamber at your convenience prolongs life of filter bags
- Most efficient polishing station on the market
- True HEPA Filter, ensures 99.97% efficiency on the capture of precious metal particles
- Two workstations with Two SEPARATE collection bags, allowing for the separation of precious metals (platinum dust captured in one ClearView filter bag and gold dust captured in the other)
- CoolBlue motors supplied are ½ HP, 2-speed
- Quiet, yet powerful, optional silencer available for more noise suppression (PN: H250)
- LED ClearView Hoods provide for a dust-free work environment
- Continuous-duty motor for long-term performances
- **A little less airflow but much higher suction, allowing filters to last longer.** (model 47-2221 High Volume)
- Drawers shown on unit are sold separately

# AIRBE

## MACHINE MFG

Made in the U.S.A. since 1975, Arbe carries a very well-regarded, economical line of machines and equipment for different types of jewelry work. Their casting and polishing products are a big favorite with Stuller tools experts and with our customers, and we've listed a few of their best-selling and go-to items below. All Arbe equipment comes with a one-year warranty, and the company is known throughout the industry for exceptional quality, value, and service.

**14-4990**  
Ultra Quiet Oil-Free  
Air Compressor 6-gallon, **\$635.00**

These compressors have been engineered and built with the latest technology to provide high quality clean air for the jewelry, dental and medical markets. The Oil-Free Dual Piston Pump System allows the air compressor to work more efficiently creating less noise and less wear for a longer pump life.

- 6-gallon capacity
- 600 watts
- Airflow: 118 liters per minute
- Maximum pressure: 8 bar
- Noise: 52 decibels
- Oil-less operation, maintenance free
- Dimensions: 16"x16"x21"
- 110 Volts

Combination Casting and Vacuum Investing Machine  
**\$16,153.85**

- Space-saving design incorporates both casting and investing in one unit
- Heavy-duty design and fabrication with the strongest vacuum pump in the market
- Vacuum storage tank enables instantaneous pull around casting flask
- Foot pedal operated for hands-free use
- Large flask capacity: up to: 6" diameter and 9" height - 20"x20" Investment table
- Dimensions: 42" Wx22" Dx44" H

**45-4044**  
 Plating Rectifier with Leads, 25 Amp  
**\$356.40**

**47-4775**  
 Enclosed Tabletop Polishing Machine  
**\$846.15**

**22-1304**  
 Centrifugal Floor Model Casting Machine  
**\$6,343.15**

The unit that pioneered the centrifugal casting technology in the jewelry industry. "Broken" arm designs allows maximum metal flow into flask.

- Automatic digital count down timer
- Adjustable speed
- 1/2 hp motor
- Dimensions: 30" Wx30" Dx39" H
- 110V

**47-4220**  
 Enclosed Double Hood Sit Down Model Polishing System, **\$3,094.80**

Totally enclosed hoods with exclusive super-flow technology directing 100% air flow into inlets. The most powerful dust collector manufactured in the industry. First stage cartridge filter captures all solid particulate down to 1/2 micron, second stage HEPA exhaust filter at 99.99% efficiency captures all airborne allergens including dust and pollen. Polishing system incorporates a high base and heavy-duty, totally sealed, and permanently lubricated ball bearing PROSERIES line of polishing motors rated at 3450 RPM. 1100 CFM. Dimensions: 48" Wx24" Dx43"H.

Orion™ welders offer you the most cutting-edge technology in pulse arc welding for the jewelry business. They are highly versatile, allowing you to easily harness the speed and power of this technology for various tasks, including ring resizing, porosity-filling, prong-tipping, and much more. And despite their state-of-the-art features, they come in a range of affordable price points.

Orion was founded in 2008 with the goal of making pulse arc technology accessible and available to a broader market, and they continue to lead the field. A smart investment for jewelers, goldsmiths, or silversmiths, Orion machines offer a feature-rich package that will quickly save you time and money.

**14-0143**  
Orion 150s Welder with  
Floating Microscope Package  
**\$5,500.00**

The Orion 150s is a powerful addition to the Orion line of pulse-arc welders. Like all Orion welders, the Orion 150s features a large touch screen interface that streamlines and simplifies the welding process — allowing users to do more and to work more efficiently. Users have many features available to them including high-frequency agitation for added penetration and weld strength, adaptive weld ignition for longer electrode life, customizable save settings for fast and easy switching between weld settings, fully update and upgrade software options, and so much more. The Orion 150s continues the Orion legacy by providing the most high-tech, versatile, and affordable welding solution on the market today.

**14-0161**  
Orion Mpulse  
**\$2,074.00**

The mPulse power settings range from 5.0ws to 30ws, in 2.5ws increments—that’s 11 different power settings to choose from. The weld spot size on the smallest setting is nearly 1mm, depending upon your material. The largest setting of 30ws will yield a weld spot approximately 1.5mm in diameter, again, depending upon the material you’re welding.

The mPulse works amazingly well with gold, silver and many other metals used in jewelry creation and repair. It’s a superior alternative to any solder application; and, measuring in at 5.5”x5.25”x3.625”, the mPulse takes up almost no space on your bench.

**14-0141**

Orion 100c Arc Welder  
with Floating Microscope Package

**\$4,500.00**

This compact model was designed and developed to meet the needs of the market with a smaller footprint to save bench space, easy-to-use touch screen interface for quick access and adjustments of welding parameters, high-frequency agitation options for difficult to weld metals, and more at a low initial cost. Two different weld modes: Pulse Arc Mode and Micro Mode. Whether an application requires high power welding needs such as silver, or intricate, precise welds around precious stones, it has the flexibility to weld with power and precision.

The Orion 200i<sup>2</sup> is packed with new features that will simplify the welding needs of any jeweler, goldsmith, or silversmith. Innovative new features include — the new Pico weld mode for intricate welds as small as 0.01 Joules of energy, to achieve truly microscopic weld joints; user selectable up to 200 joules of energy for large silver or platinum pieces; a large 10" touch screen interface with one-touch access to all welding parameters; the ultimate space saving design; and three unique pulse shape wave form options to choose from: Classic Orion (for Orion users that have come to love welds produced by the Orion 150i), Triangle (for weld smoothing), and Square (laser like welding). And introducing the new Seam mode—a revolutionary breakthrough in micro pulse arc welding. Seam mode allows users to mimic laser welding with weld speeds up to 30 welds/sec. Keeping in the Orion tradition of excellent customer service, training, and support we have added on-screen resources, which include video tutorials and a detailed product user manual. The patent pending Orion 200i<sup>2</sup> gives you the precision and speed of a laser with the versatility, power, and ease of a pulse arc welder.

Orion Pulse 200i<sup>2</sup> Welder

**\$7,900.00**

- New 10" touch screen display
- New Pico mode for extremely small and precise welds
- Three Pulse Waveforms - Classic, new Triangle, new Square
- New Seam mode - weld up to 30 welds/second
- High frequency agitation - including new negative agitation
- New Internal weld monitoring to provide weld consistency and automatically optimize weld parameters
- Advanced waveform shaping options
- Adaptive Weld Ignition™ - for extended electrode tip life
- Intelligent Welding™ and MyWeld™ software
- Update software via USB port
- Pulse arc and resistance welding technology in one machine
- 5x-10x microscope with built-in shutter for superior viewing without green lens obstruction

Ultrasonic cleaning can help you generate additional income by boosting the efficiency and quality of repair work, and L&R® Ultrasonics set the standard for this technology. Established over 85 years ago, built in the United States, and trusted by generations of jewelers, L&R offers a range of powerful yet compact ultrasonic cleaning machines, including the Quantrex Q210 and the popular PC3 Personal Cleaner. Stuller also carries L&R's custom-formulated jewelry and watch solutions for a wide variety of cleaning applications.

L&R PC3 Ultrasonic

**\$170.00**

L&R Quantrex systems are manufactured with vinyl-clad steel housings, stainless steel tanks, and premium system components. Their contemporary design and quiet operation are a complement to the importance of beauty and elegance within the jewelry industry. The Quantrex line is backed by the most comprehensive warranty in the industry—all defects in materials or workmanship are covered for 2½ years.

- Tank dimensions: 4¾" x 3¾" x 2⅝"
- Tank capacity: 18oz - Overall dimensions: 5⅝" x 4⅛" x 4¾"
- 117V AC
- Peak output: 70 watts
- Heater, timer, and basket not included.

**23-5854**

L&R Quantrex Q90 Ultrasonic

**\$315.00**

- Tank dimensions: 5⅞" x 5⅞" x 4"
- Timer and heater included.
- Capacity: 2 quarts (1.9 liters)
- 117V AC - Overall dimensions: 6⅞" x 6⅞" x 8⅞"
- Fits Two-quart baskets
- Maximum temperature 150°
- Peak output: 160W, 43 kHz - Not for use with soft stones.

**23-5858**

L&R Quantrex Q140 Ultrasonic

**\$455.00**

- Tank dimensions: 9⅞" x 5⅞" x 4"
- Peak output: 270W
- Capacity: 3¾ quarts
- Timer and heater
- Overall dimensions: 10⅞" x 6⅞" x 8"
- 117V AC
- Fits 2-quart and 3-quart baskets.

**23-5859**

L&R Quantrex Q210 Ultrasonic

**\$897.00**

- Tank dimensions: 9⅞" x 5⅞" x 4"
- Peak output: 400W, 43 kHz
- Capacity: 6 quarts
- Timer and heater included
- Fits 2-quart or 3-quart baskets

**47-6010**  
Rhodium Containment Hood  
**\$1,249.00**

- Eliminates odor, vapors, and particulate matter migrating throughout the workplace
- Illuminated work area
- Small footprint friendly
- Can operate 24/7, allowing beakers to be left inside contained area
- Designed for quiet operation
- Can be ducted to the outside
